Remove the slide cover from either front or back

**Installation Instructions**

Install the slide cover as indicated, ensuring that Rod A is securely seated in Groove B

Our newest tip-to-pour pitcher has a big goal: ease of use. First, we installed an innovative weight-activated auto open and close slide mechanism. Tip to open and pour, place upright to close. The mechanism opens smoothly without any sudden motion that might cause a spill. Second, filling a pitcher can be a bother if you need to unscrew the lid and handle. With AUTO SLIDE, just lift out the pour mechanism, place on a table (small tabs keep it off the surface), and fill through the large opening. You can also easily remove the mechanism for cleaning. Third, it needs to be large. AUTO SLIDE is 1.5L/1.8L, which means less refilling. Innovation, convenient filling and cleaning, family size — big goal accomplished!

- Unique slide mechanism for auto open and close.
- Large capacity borosilicate pitcher, 1.5L/1.8L.
- Slide mechanism is protected from moisture and is rust free.
- Convenient filling without removing the entire lid.
- Easy to remove slide mechanism for cleaning.

COLD BREW COFFEEMAKER

UNIQUE BASE DESIGN

A

The SmartBase® is our mid-sized cold coffee brewer and cooling carafe. The fine mesh core holds about 350 grams (12 oz.) of ground coffee. Fill with cold water and place in the refrigerator for 8-12 hours for enough concentrate for over 1200ml (41 oz.) of delicious coffee. The SmartBase® solves a problem with its 2-stage base design. Water drips into the first stage, then is sealed into the second stage. The very bottom of the base can be removed to empty the water. No more water or coffee rings on your table. Add the Ice Pearls attachment for a cooling carafe.

- Unique base design keeps your table clean.
- Makes enough concentrate for up to 7 cups of coffee.
- Can also be used as a cooling carafe with the Ice Pearls attachment.
