MULTI-OPTION BEVERAGE BOTTLE

- Multi-option BPA-free plastic bottle.
- Ring lock for security.
- Straw can be removed from the top.
- Large drinking spout.
- Filter included for infusions or teas.
- Silicone carry strap.

This innovation gives you two drinking options in an unexpected way (three if you add fruit infusion). Start by folding down the ring lock to release the transparent lid. Push the button so the lid swings open to the lock position. The straw springs up for your drink, and closing the lid compresses the mechanism. Would you rather drink from the spout? Just pull the straw straight up to remove it, no need to unscrew the lid. Replace it just as easily and push it down into position. Two options so far. For a leaf tea or fruit infusion, remove the straw, unscrew the lid and attach the filter for option three. Fold the ring lock up to secure the lid. The BPA-free plastic bottle and lid keep your cool refreshment safe and secure.

MODERN TOUCH

TRADITION & INNOVATION

Brewing the best tea takes careful thought. First, rinse the tea and heat the cup. Second, steep long enough but not too long. Third, put the brewing basket somewhere while you're drinking the first cup. Fourth ... well, it takes careful thought. So, how about traditional tea with a modern touch? Place fresh leaves in the basket; perch the lid and basket unit on the edge of the borosilicate cup; pour through the leaves to fill the cup; place the lid on the cup so that the tea can steep; remove and invert the basket, which will rest in the concave lid and not leak on your table. Enjoy traditional tea enhanced with modern innovation.

- A modern innovation on traditional tea.
- High quality borosilicate cup.
- Silicone bottom for safety.
- Tea basket and lid conveniently integrated.
