## SEALED WATER PITCHER

### LARGE CAPACITY

HOME REFRESH does its job and does it well. That means your task is easier. The large capacity provides plenty of your favorite beverage for the whole family. Push the back tab up and the double sealed lid opens for a quick pour. Push down the tab and your pitcher is safe from leaks. Refilling is easy, too. You don't need to unscrew the lid, just twist the top counter-clockwise and it reveals the wide opening for refilling. If you have installed the included infusion filter, it comes out in a flash. This pitcher works hard so you don't have to.

- Sturdy glass, high-capacity pitcher.
- Double seal mechanism to eliminate leaks.
- Easy-remove top for refilling.
- Infusion filter included.
- Pitcher can lay flat for easy serving.

Our newest tip-to-pour pitcher has a big goal: ease of use. First, we installed an innovative weight-activated auto open and close slide mechanism. Tip to open and pour, place upright to close. The mechanism opens smoothly without any sudden motion that might cause a spill. Second, filling a pitcher can be a bother if you need to unscrew the lid and handle. With AUTO SLIDE, just lift out the pour mechanism, place on a table (small tabs keep it off the surface), and fill through the large opening. You can also easily remove the mechanism for cleaning. Third, it needs to be large. AUTO SLIDE is 1.5L/1.8L, which means less refilling. Innovation, convenient filling and cleaning, family size — big goal accomplished!

- Unique slide mechanism for auto open and close.
- Large capacity borosilicate pitcher, 1.5L/1.8L.
- Slide mechanism is protected from moisture and is rust free.
- Convenient filling without removing the entire lid.
- Easy to remove slide mechanism for cleaning.
